OBJECTIVE

Cybersecurity student at Rochester Institute of Technology pursuing a Summer 2027 co-op in network security, threat detection, and security monitoring, with hands-on experience in SIEM/EDR tooling and cloud honeypot deployment.

EDUCATION

Rochester Institute of Technology (RIT) Rochester, New York
Bachelor of Science in Cybersecurity — Minor in Political Science Expected May 2028

PROJECTS

AWS Cloud Honeypot Deployment (Personal Project) Sept 2025 – Present

- Designed and deployed a decoy system simulating vulnerable environments to observe, log, and analyze malicious activity.
- Monitored attacker behavior and traffic patterns in AWS, using findings to document common attack techniques and indicators of compromise.

Industry Engagement & Networking May 2025

- Engaged with cybersecurity professionals from Abitronix, Claro, and other organizations to explore real-world security practices.
- Analyzed cloud infrastructure, pricing models, and security strategies used across industry settings.

AwareLink — WiCHacks Hackathon Project March 2025

- Developed an educational web app for STD awareness using PHP, HTML, and CSS.
- Designed an accessible, user-friendly platform in a team environment.

TECHNICAL SKILLS

- Networking & Security:** Wireshark (Packet Analysis), Nmap, pfSense, Graylog (SIEM), Wazuh (EDR)
- Systems:** Windows, Windows Server (Active Directory, DNS, DHCP), macOS, Linux (Rocky Linux, Ubuntu, Kali)
- Cloud & Virtualization:** AWS, VMware Workstation Pro, VirtualBox
- Languages:** Java, Python, C/C++, SQL, x86 Assembly, HTML/CSS, JavaScript, PHP
- Scripting:** Bash, Zsh, PowerShell
- Development Tools:** Git, Visual Studio Code, Visual Studio
- Bilingual:** English/Spanish

LEADERSHIP & VOLUNTEER EXPERIENCE

Joy and Whimsy Club — Vice President | Web & Community Coordinator April 2025 – Present

- Co-founded and now serve as Vice President of a student organization focused on fostering creativity and community engagement on campus.
- Plan and coordinate social and collaborative events to build connections among students.
- Design digital flyers and promotional materials and manage online community communications.

Women in Computing (WiC) — Volunteer Lead | Mentor August 2024 – January 2026

- Mentored incoming freshmen individually in academic, professional, and personal development.
- Served as volunteer lead, recruiting and managing volunteer schedules for club events.
- Coordinated logistics and volunteer support for large-scale technical and outreach events.
- Facilitated group discussions and community-building activities during weekly meetings.

RIT Cybersecurity Club (RITSEC) — Active Member | Mentee August 2024 – Present

- Member of the Blue/Red SIEM mentorship group, exploring defensive monitoring and offensive security operations.
- Participating in a systems reverse engineering mentorship, learning from upperclassmen to analyze software, hardware, and protocols.
- Competed in Capture the Flag (CTF) competitions involving cryptography, network analysis, and security challenges.

Momentum I — Leadership Certification October 2024

- Completed a portfolio-based leadership development program focused on communication, collaboration, and initiative.

ADDITIONAL EXPERIENCE

Flanders Bagel — Cashier Aug 2021 – Aug 2025

- Delivered accurate transactions and high-quality customer service while collaborating with team members during peak hours.
